

JA Flight Training

Instrument Pilot Course

With JA Flight Training, your local Cessna Pilot Center, you can earn your Instrument Rating in a few short weeks. All of our NEW aircraft are equipped with Garmin G1000, GFC700 autopilot, traffic advisory, terrain awareness, as well as XM weather and radio. Our Full-Motion AATD (simulator) emulates the G1000 exactly as the real aircraft.

Redbird FMX Simulator
